

Casa Carruba

House with a Soul - Casa con Anima

„Casa Carruba“ follows an inspiration to create houses with a soul.

The vision of Casa con Anima envisions living space of comfort, well-being and harmony bringing to life the modesty that characterized the original, local builders of another epoch. The house tells you its story painted in irregular lines, river stones, warm colors, niches and arches. Simplicity, charming details, no unnecessary luxury are the essential elements of this town-house in Vidracco, close to Damanhur.

The house can be heated with local wood, besides methane, and the beds are hand made by Damanhurian craftsmen.

Casa Carruba is a low emission house thanks to the building materials and ecological cleaning systems.

The water filter system in the kitchen provides superb drinking water quality.
